TOMORROW'S WORLD

THE FUTURE OF SCIENCE
BEGINS HERE!

A groundbreaking 48-book narrative series for middle grade readers, taking them on a fun and unforgettable journey into the world of science. Each book showcases how scientists around the world are pushing boundaries, solving real-world problems, and reshaping our future.

Written by experienced authors in collaboration with expert scientists, Tomorrow's World presents science in an exciting new way! With graphic-style illustrations and mind-blowing facts, these books will inspire a passion for discovery in every young scientist.

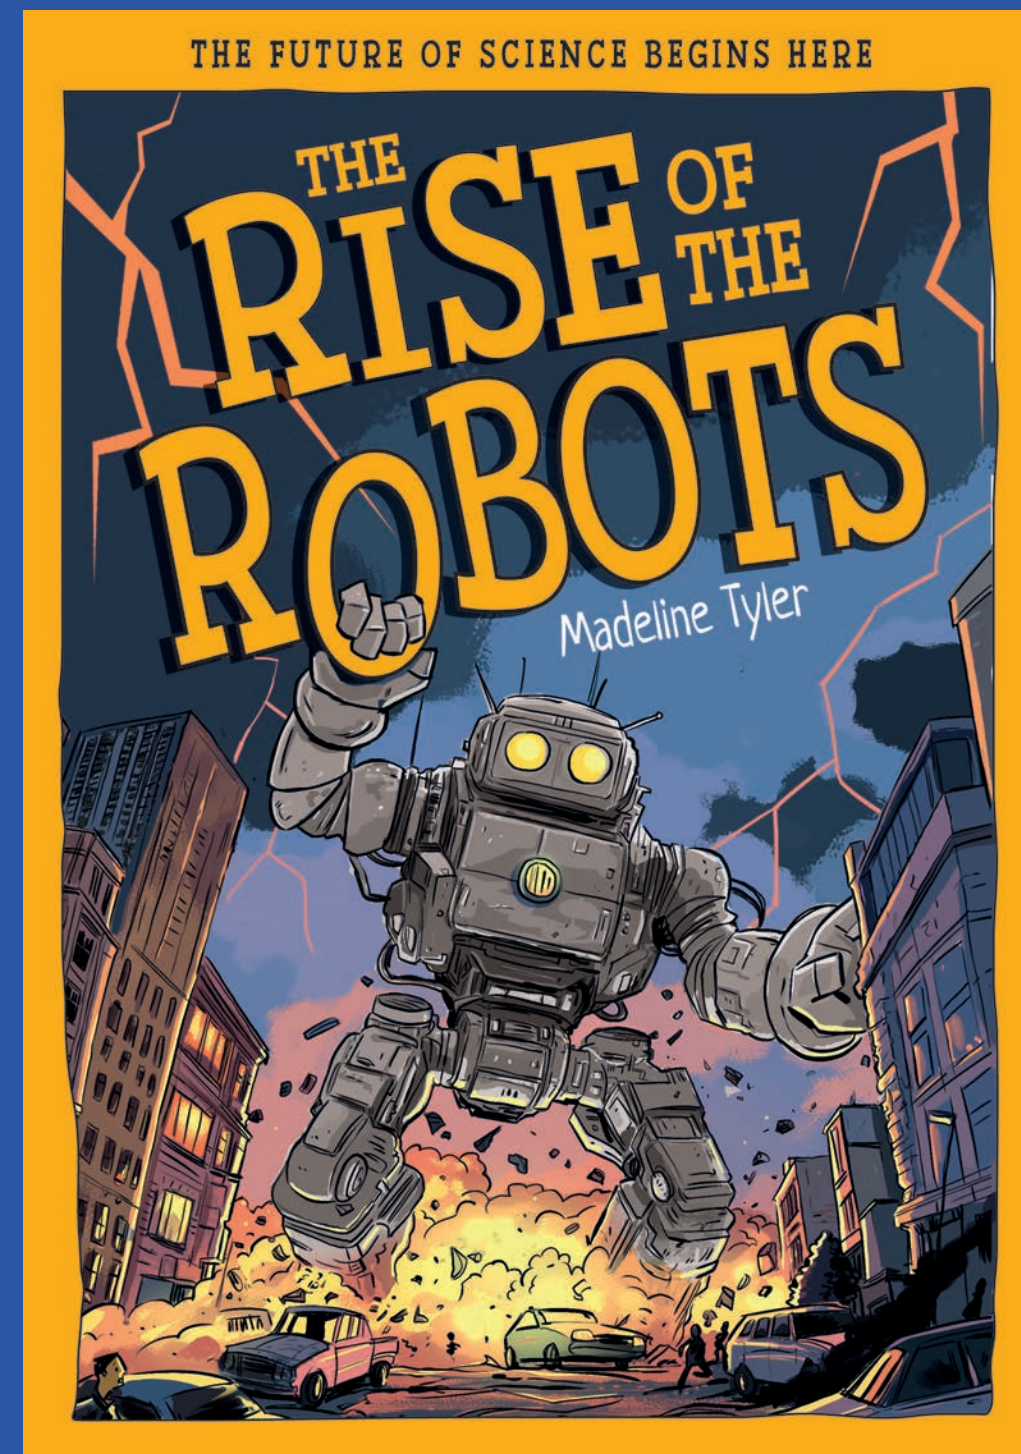

SPECIFICATIONS

Format: 230 x 160mm. PB

Ages: 9 to 11 years

RRP: £9.99

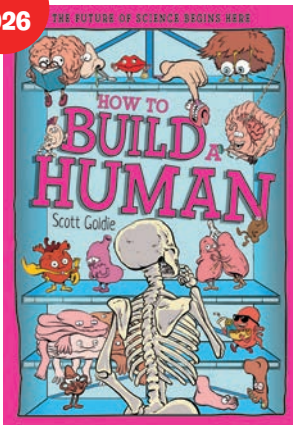

Extent: 176 pages. Full Colour

Season 1

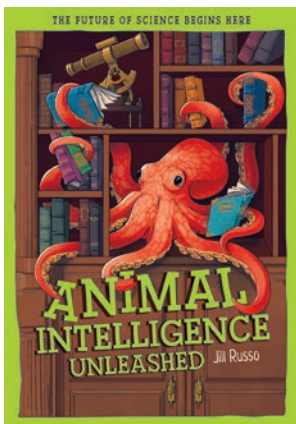

Jan
2026

How to Build a Human

ISBN: 9781835694633

How does the human body work? From the DNA that makes us who we are, tiny proteins fighting off invading viruses, and mighty organs holding us all together, discover the fascinating science behind the human body.

Animal Intelligence Unleashed

ISBN: 9781835694725

From how animals communicate and interact with each other, to the incredible ways they adapt to their environment, get ready to discover how scientists are uncovering the secrets of animal behaviour and learning what makes each species unique.

The Ultimate Space Quest

ISBN: 9781835694640

What's next for space exploration and how can we explore the infinite beyond? Discover the brave science and engineering experts working to unlock the future of space travel, with groundbreaking research and incredible discoveries.

The Rise of the Robots

ISBN: 9781835694626

What happens when there's a problem so big humans can't solve it on their own? Discover the science and engineering experts working together to create powerful machines, find out all about self-driving machines, nanobots fixing illnesses, and how robotics experts use artificial intelligence.

Season 2

Apr
2026

Journey Through the Mind

ISBN: 9781835694695

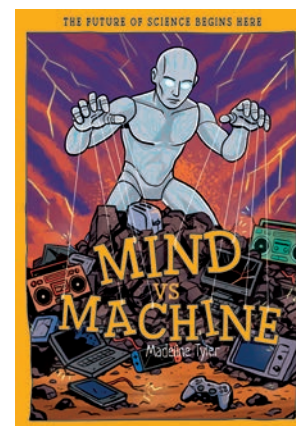

Explore the fascinating (and sometimes wacky) world inside your brain! Head on an adventure through the power and potential of neuroscience, and learn how our brains help us think, feel and move, and how they control every part of our body.

The Battle for Earth's Survival

ISBN: 9781835694664

Can we save the world? With climate crises, wildlife extinction, and awful pollution threatening our planet, the stakes are high... but don't panic! Scientists have a plan. Discover the experts unlocking the secrets to saving Earth, their groundbreaking research, and incredible discoveries.

Mind vs Machine

ISBN: 9781835694688

Artificial intelligence has the potential to shape our world! This exciting book introduces the world of AI, from its fascinating history to its groundbreaking impact today. Discover robots that explore Mars, AI-powered videogames, and life saving medical advancement.

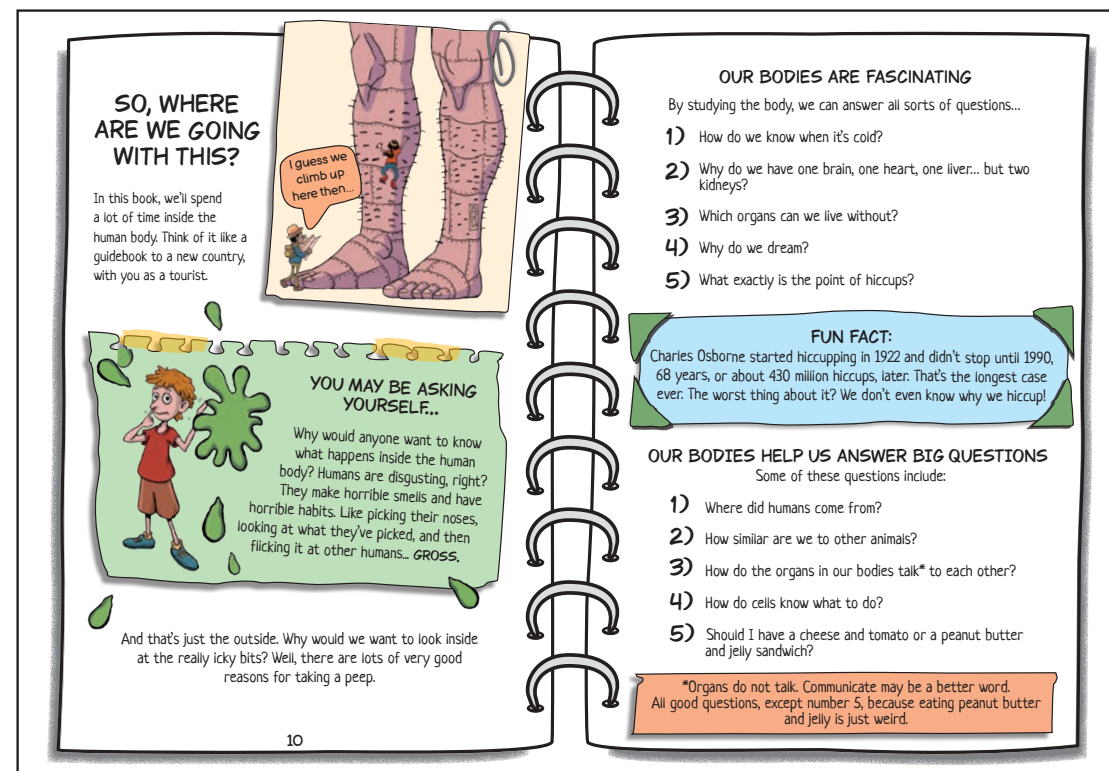

Secrets Beneath the Waves

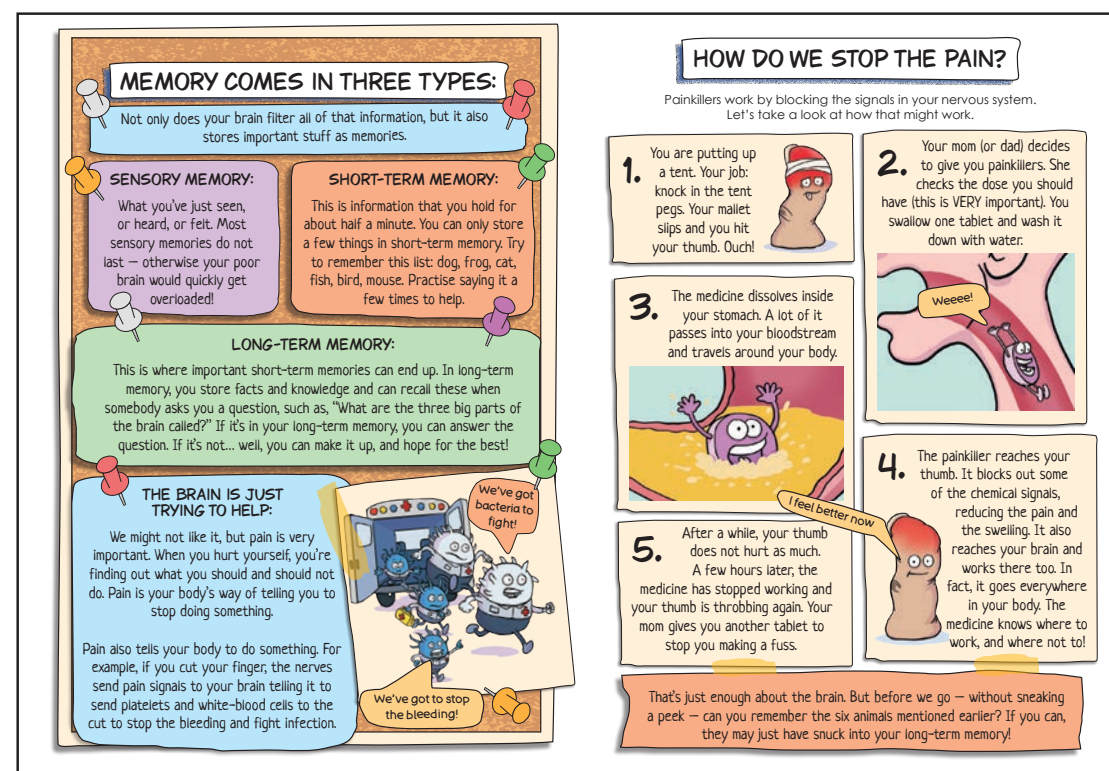

ISBN: 9781835694718

Dive into the depth of Earth's oceans and learn all about deep-sea exploration. Discover how scientists are uncovering the secrets that lie beneath the waves, and the fascinating creatures that dwell there.

Fun and engaging graphic-style design!

Additional Materials

MORE THAN JUST BOOKS

This is more than just a series of books; it is a complete resource, with lots of **FREE** resources to support each book.

Teachers' & Parents' Resources

Filled with discussion prompts and questions, extra information and fascinating facts, our Teachers' & Parents' Resource packs are full of fun ideas for getting children engaged with key scientific topics.

Young Scientists' Activity Pack

Filled with diverse and exciting soft-learning activities, from creative writing and drawing to wordsearches, mazes and much more, the Young Scientist's Activity Pack will keep inquisitive children entertained for hours.

Meet the Scientist Pack

Find out all about famous scientists and the impact that they've had on their field. Featuring details about game-changing discoveries, fascinating biographies, and their day-to-day work.

Use the QR code to visit the website, download free resources, and discover other books in the series.
